

SunPak

High Performance Calibrated Press Under-Packing

PRODUCT FEATURES / BENEFITS

- Anti-Creep Formulation ~ *Resists slipping movement*
- Anti-Wicking Treatment ~ *Resists moisture at edges, longer lasting*
- Full Gauge Range ~ *Pack most any press, Every sheet gauge stencilled*
- High-Density ~ *Maintains gauge during the run, sharper dots*
- Excellent Formation ~ *Yields uniform solids and quality output*
- Contains Recycled Fibres ~ *Environmentally Friendly Formulation*

UTILITY

- Suitable for use under
- ✓ Plates
 - ✓ Blankets ~ Printing Unit or Coating Unit
 - ✓ Back Cylinder

APPLICATIONS / PROCESS

- Sheetfed
- Heatset Web
- Coldset Web
- Commercial Printing
- Label /Forms
- Newspaper
- Packaging

TECHNICAL DATA

Construction	Treated Virgin and Recycled Cellulose Fibers
Type	Non-Adhesive, Non-Compressible
Surface Finish	Steel Calendared
Color	Ivory
Nominal Thickness	Target +/- 3% (Industry Spec +/- 5%)
Surfaces	X,Y Axis; Sized (moisture resistant) Z Axis; Sized (wicking resistance)

AVAILABILITY

General	Sheets and Rolls; Max sheet size 63" x 84"
Gauges (mm)	.002" - .016"
